

## **PIG® Battery Cleaner & Acid Neutralizer**

CLN1003 Foam Sticks to any Surface, 12 containers per box

Safely clean up battery acid drips, leaks and spills by using this color-changing battery-acid neutralizer spray.

- Neutralize and clean up drips, leaks and spills of battery acid
- pH-indicating formula changes color from beige to red when it comes into contact with battery acid; changes back to beige once battery acid is neutralized and safe to clean up
- Foaming action gets into cracks and crevices; won't run off like a liquid cleaner
- Ideal for use on heavy equipment (e.g. forklifts and fleet vehicles), on rollers and stands, underneath battery racks, on concrete floors in battery rooms and more
- Prolongs the life of your batteries by helping to prevent corrosion
