

PIG™ Microbial Oil Stain Remover

CLN889 Remediator, 1 gal. Container, 1 each

Break down and eliminate oil and fuel stains on pavement and concrete with our stormwater-safe solution. Environmentally friendly formula requires no containment or cleanup!

- Gradually remove oil and fuel stains from pavement and concrete to eliminate rain runoff and sheen emissions
- BioBreaker™ microbes digest hydrocarbons through bioremediation, naturally converting them into water and harmless gases
- Stormwater-safe solution can enter storm drains without harming the environment
- Easier than using cleaners and degreasers that cannot be allowed into waterways or groundwater systems — just check the SDS, Section 6, on competitor cleaners to see the warning!
- Applies easily using a manual sprayer and light agitation or pressure washer; product is designed to work over time as a repeated application during maintenance walks
- Inspector-friendly best practice eliminates lasting record of stains and shows your commitment to compliance
- Concentrated formula dilutes to your coverage and works across multiple applications
- Great for use anywhere oils and fuels hit the pavement: in parking lots and around docks, dumpsters, compactors, stockpiles and more
- The recommended dilution of 1:15 arms you with 15 gallons of cleaner for plenty of maintenance rounds, affordably. Treat over 400 stains with single-application coverage of 1,485 sq. ft., or 473 oil stains with a 2-ft. average diameter
- Please note that the depicted color may vary

Specifications

Style	Remediator
Brand	PIG
Intended Use	Asphalt and Concrete Surfaces

Temperature Limit	32°F (0°C) to 110°F (43°C)
Treats	Treats up to 1,485 sq. ft. or 473 2 ft. Dia. Stains in Single Application
Volume	1 gal. Container
Color	Blue
Sold as	1 each
Weight	8.8 lbs.
Composition	Water Synergistic microbial bacteria Alkylpolyglycoside C9-11 Blue dye
Shelf Life	2 years
UNSPSC	47131821
Pigalog® Page Number	<u>Page 181</u>

Metric Equivalent

Weight	4 kg
