

PIG® Microbial Oil Remediator for Grease Traps

CLN963 Remediator, 1 gal. Container, 1 each

Our stormwater-safe solution digests the grease, fats and organic wastes that accumulate in grease traps and drain lines to prevent backups, overflows and odors.

- Ideal for food processing, manufacturing and service industries
- BioBreaker microbes digest solids, grease, fats, proteins and lipids through bioremediation, naturally converting them into water and harmless gases
- Stormwater-safe solution can enter storm drains without harming the environment
- Easier than using cleaners and degreasers that cannot be allowed into waterways or groundwater systems - just check SDS, Section 6, on competitor cleaners to see the warning!
- Product is designed to work over time as a repeated application; can be pumped into your system or applied manually
- Helps to reduce the need to pump grease traps and reduces odors associated with maintenance of traps
- Follow local ordinance on grease traps and grease removal
- Please note that the depicted color may vary

Specifications

Style	Remediator
Brand	PIG
Intended Use	Grease Traps
Temperature Limit	Works from 42°F (5.5°C) to 120°F (49°C)
Volume	1 gal. Container
VOC Content	VOC-Free
Color	Purple
Sold as	1 each
Weight	8.8 lbs.
# per Pallet	60
Composition	Water 88-91%, Alkypolyglycoside 4-7%, Bacterial Cultures 4-

6%

Shelf Life

2 years

UNSPSC

47131821

Metric Equivalent

Weight

4 kg

Technical Information

US Only

This product can ONLY be shipped to the United States.
