

IBC Tote Fill Cap Wrench

DRM1295 For IBC Units, Aluminum

Remove the center cap off an IBC with this handy Fill Cap Wrench.

- Lightweight IBC tote wrench can help you achieve the right torque to remove a tightly closed IBC cap
- Double handles ease the opening of previously torqued fill caps; can also be used to tighten fill caps for in-plant use
- Helps you comply with UN/DOT container closure requirements prior to shipping by inserting a 1/2" drive manual torque wrench (not included) into the center hole and applying the specified torque per manufacturer's specs
- Compatible with most 6-inch IBC caps
- One-piece 365 aluminum construction

Specifications

Use With	IBC Units
