

AEROSOLV® XL CA-Compliant Can Puncturing System

DRM1334 Aerosol Can Recycler, For 5" H to 9.5" H Cans, 1 each

Don't pay for disposal, cash-in on recycling! Turn your aerosol cans into scrap steel with this California-compliant system with can counter.

- Designed to comply with California's rigorous vapor emission regulations
- Properly-emptied cans are exempt from haz-waste regulations and can be recycled as scrap steel
- Unit quickly pays for itself as you sell recycled steel rather than pay for can disposal
- System works with domed mini, standard and jumbo aerosol cans
- PTFE disk on compression spring valve opens when can is inserted, closes when can is removed; minimizes vapors escaping through bung
- Two-piece coalescing filter/carbon cartridge captures odors and potentially-harmful VOCs
- Colorimetric indicator means no-guess cartridge and filter changeouts
- Angled pin ensures a clean puncture every time
- Unit mounts directly into 2" bung on a 30- or 55-gallon closed-head steel drum; residual liquids drain directly into drum
- Design ensures that cans puncture only when seated correctly
- Entire unit is PTFE coated for easy cleaning
- Filter life is 6 months or 2,000 cans; cartridge life is 3 months or 1,000 cans

Specifications

Style	Aerosol Can Recycler
Use With	5" H to 9.5" H Cans
Brand	Justrite AEROSOLV
Coating	PTFE Coating
Lockable	Yes
Vapor Minimization Disk	Included
Color	Black/Silver
Distributor Part Number	59lk59
Sold as	1 each
Weight	15.4 lbs.

# per Pallet	30
--------------	----

Composition

Body: Aircraft Aluminum
Puncture Pin: Carbide Tipped (Non- Sparking)
Gasket: Aeroprene
Sleeve: Nylon

Includes

1 - Counter for AEROSOLV® Can Puncturing System (DRM1145)
