

Tuffite® Retractable Bonding/Grounding Wire Reel

DRM133 Reel Grounding End, Hand Clamp
Bonding End

Self-retracting, locking reel with FM Approved clamp provides grounding for high-use areas.

- Spring-loaded retracting reel maintains a handy length of wire; prevents tangles to avoid accidents
- Reel is designed for smooth operation that promotes regular use—locks when cable is at desired length and retracts with a light tug
- Ideal for transferring flammable materials in high volumes
- Durable steel-encased reel helps protect wire from corrosion and damage
- Predrilled holes let you anchor reel to a grounded table, workstation or other sturdy surface (hardware not included)
- 3/32" uninsulated, corrosion-resistant steel cable provides solid grounding and easy inspection for fraying
- Hand clamp is FM Approved to meet high safety standards
