

Drum Lock

DRM1340 For Steel Drums w/ .75" & 2" Bungs, 1 each

Put your steel drum on lock-down with a streamlined, low-profile, tamper-proof capseal bung lock.

- Protects steel drum contents from cross contamination, theft or sabotage
- Set includes a 2"- and a ¾"-drum lock that easily attaches to bungs on steel 15–110 gal. drums
- Hinged, one-piece design, constructed of heavy-duty, nonsparking zinc alloy and with a built-in, all-weather locking mechanism; gator-like grips simply clamp around the bung plugs to secure the drum contents
- Locks are treated with an electrophoretic coating that is corrosion-proof and engineered to last a lifetime
- Includes two off-set brass keys
