

FloodBoss™ Water-Activated Flood Barrier

FLD006 Ideal For Ongoing Protection at Doorways, Entrances, 6.5" W x 5' L x 3.5" H When Fully Saturated, 16 per bag

Place these Barriers as your first line of defense against water intrusions. They swell on contact with water to form a heavy dam that helps control flooding.

- Forget heavy sandbags; these Barriers are lightweight and easy to handle before wetting, but increase to 34 lbs. each when saturated
- Super Absorbent Polymer (SAP) filler swells on contact for serious flood-stopping power
- Place in problem areas when you know a storm is coming; great for blocking doors and entrances or guarding finished basement areas
- Lay multiple Barriers end to end for more coverage; built-in wedge design prevents rolling
- Activated barriers can be left in place for up to six months; not for use with salt water
- FloodBoss helps protect your home, including all those irreplaceable keepsakes in your basement, from water damage; take control and *make last time the last time™*

Specifications

Dimensions	9.5" W x 5' L x .25" H
Brand	FloodBoss
Capacity	4.25 gal. per Barrier
Dimensions When Fully Saturated	6.5" W x 5' L x 3.5" H When Fully Saturated
Height When Fully Saturated	3.5" When Fully Saturated
Ideal For	Ongoing Protection at Doorways, Entrances
Color	Black
Install/Deploy Type	Temporary/Removable Barrier
Temperature Limit	Works from 32°F to 180°F
Traffic	Non-Weight Bearing
Weight When Fully Saturated	34 lbs. each When Fully Saturated
Sold as	16 per bag
Weight	6.4 lbs.
# per Pallet	56
Composition	Skin: Polypropylene Filler: Super Absorbent Polymer (SAP)

Metric Equivalent

Weight	2.9 kg
Dimensions	24cm W x 152cm L x 6.4mm H
