

Grounding Cable for PIG® Anti-Static ESD Anti-Fatigue Floor Mat

FLM1013 1/4" Eyelet Grounding End, Snap Style Bonding End, 10'

Stand confidently on your Anti-Static ESD Anti-Fatigue Floor Mat with this 10-foot grounding cable designed and built precisely for that mat roll.

- Rely on this New Pig grounding cord to attach perfectly to, and work seamlessly with, your PIG Anti-Static ESD Anti-Fatigue Floor Mat (FLM1011) and Mat Roll (FLM1012)
- This grounding cable for your anti-static mat is a required component in order to ensure proper and safe ESD dissipation
- Recommended to attach one grounding cord for every 10-foot section of mat; six grounding cords needed for mat roll
- Optionally, add one extra grounding cable as a backup/replacement for use with the single mat
- Works with your static-dissipative mat's 109 OHMs-per-square resistivity to protect your electronic equipment from damage and potential data loss, and to protect you from shocks

Specifications

Dimensions	10' L
Brand	PIG
Bonding End	Snap Style
Grounding End	1/4" Eyelet
Insulated	Yes
Meets NFPA Standards	No
Sold as	1 each
Weight	1 lb.
Composition	Copper wire
UNSPSC	39121613
Pigalog® Page Number	Page 223

Metric Equivalent

Weight	.5 kg
Dimensions	3m L
