

Anti-Fatigue Mat Ramp

FLM816 For Niru Cushion-Ease GSII Modular Anti-Fatigue Mat, Male or Female Joiners, 2" x 3' x .625"

Attach this beveled ramp to your Niru® Cushion-Ease™ GSII™ Anti-Fatigue Mat to reduce tripping hazards and create a finished look.

- Beveled Ramp reduces tripping hazards by creating a smooth transition onto Mat; makes it easy to roll carts on and off
- 100% nitrile construction provides excellent resistance to chemicals, oils and grease
- Ramps match the composition of the Mat for consistent protection and resistance
- Silicon carbide grit provides long-lasting, non-slip traction; superior bond secures grit to pure nitrile Mat so grit won't wear off
- Ramps attach easily to Mat sections with built-in connectors and fit together without hammering, then stay in place during use
- Customize using cut guides molded every 12 inches on underside of Ramp; create a straight end or inside or outside mitered corner neatly and precisely
- Gritty surface blends in with Mat for a neat, finished appearance and continued traction over entire Mat system
