

PIG® TuffGrit™ Anti-Slip Runner

FLM8505 Dry Applications, Base: Vinyl Foam/Top Coat: Aluminum Oxide and Proprietary Sealant, 3' W x 10' L

Durable TuffGrit™ surface on this Anti-Slip Runner provides long-lasting traction in slip zones, transition areas and anywhere you need safe footing.

- Proprietary TuffGrit™ coating is incredibly durable and abrasion resistant; no other grit coating on the market lasts longer
- Exceeds ANSI standards for high slip resistance, far better than tapes or paints; provides extreme traction even in wet areas or applications with light overspray or oily drips (not for use in standing water/oil)
- Engineered to leave no grit behind; safer than other mats that gradually lose their grit -- and their effectiveness -- over time
- Thin profile won't create a trip hazard
- Ideal when transitioning from wet/oily to dry areas, adding traction over uneven surfaces, flat rooftop maintenance applications and more
- Rolls up for easy transport to other parts of your facility; recovers flatness quickly once unrolled
- Available Glow-in-the-Dark border adds visibility in low-light conditions
