

PIG® Storm Drain Skimmer Squid

FLT012 For Oil, For Storm Drains, Catch Basins, Storm Drain Filters, 2 each

Install a Skimmer Squid inside your storm drain catch basin as a passive last line of defense to capture oils, sheens and fuels from your stormwater runoff.

- Filters viscous and non-viscous oils, sheens and fuels from water collected inside your storm drain prior to outfall discharge
- 3-foot diameter reach covers the largest area of any in-the-drain skimmer on the market
- Attached 9-foot line makes Skimmer Squid easy to deploy and retrieve; line can be adjusted to fit the depth of your catch basin
- Patent-pending design combines two unique absorbents to work above and below the surface of the water to maximize treatment efficiency
- Absorbent spaghetti-strip pillow (the “head” of the squid) floats to remove surface-level contaminants
- Absorbent pompom (the “tentacles”) sweeps through moving water to capture oil below the surface
- Works effectively in standing water or turbid conditions during rain events
- Ideal last line of defense against lingering oils and sheens that get past other stormwater treatment measures at your facility
- Designed to work in tandem with a PIG Storm Drain Filter for best performance (tie Squid to grommet at bottom of Drain Filter)
- Can also be used as a standalone treatment option when tied directly to storm drain grate

Specifications

Style	Drain Skimmer
Use With	Storm Drains, Catch Basins, Storm Drain Filters
Color	White
Dimensions	ext. dia. 15" x 24" H
Absorbency	Up to 2.78 gal. per box
Brand	PIG

Substance Filtered	Oil
Sold as	2 per box
Weight	3.6 lbs.
New Pig Patent	Pending
# per Pallet	36
Composition	Polypropylene
UNSPSC	47101514
UV Resistant	Yes
Pigalog® Page Number	<u>Page 184</u>

Metric Equivalent

Absorbency	Up to 10.5 L per box
Dimensions	ext. dia. 38.1cm x 61cm H
Weight	1.6 kg
