

## PIG® Self Bailer Replacement Filter - Box of 2

FLT518 For Oil

Replace the filter of your Self Bailer to keep it in peak operating condition and your outflows free from hydrocarbons.

- Replacement filters for Self Bailer Kit (FLT517)
- Captures oily sheen and modest spills but lets water flow through
- Automatically stops outflow if filter senses large hydrocarbon leak or if absorbent cartridge is completely saturated with hydrocarbons
- Fail-safe valve closes as internal SAP absorbent captures hydrocarbons; the faster a spill is sensed, the more quickly the valve closes
