

## PIG® Stormwater Heavy Metal Filter Sock

FLT717 For Heavy Metals; Oil; Sediment; Debris, 5" x 5', Max Flow Rate 4.2 gal./Minute

Remove metals, oils and large amounts of sediment at any point along the stormwater runoff path with this economical sock designed for use on rough, uneven or exposed-soil surfaces.

- Filter substantial sediment from stormwater runoff to protect your stormwater drainage system; also catches oils and metals.
- Works great anywhere stormwater flows, whether at the source, the drain or in between.
- Metal filter sock captures copper, lead, zinc, chromium, cadmium and more.
- Filters 92.4% of total suspended solids (TSS).
- Strong outer skin is effective near light construction, in salvage yards and more.
- Sock stays firmly in place under its own weight, even on broken asphalt and dirt thanks to conforming internal material.
- For sloped areas, can be staked down.
- Easily bend the flexible 5-in. x 5-ft. sock around drains and conveniently move when needed.
- Recycled inner material (parboiled, oven-dried rice hull) never grows mold; won't release harmful compounds like rubber alternatives.
- Count on the 4.2 GPM/Linear Foot constant-flow filtration to resist water backup.

### Specifications

<b>Style</b>	Around the Drain
<b>Use With</b>	Storm Drains, Culverts, and Ditches
<b>Dimensions</b>	ext. dia. 5" x 5' L
<b>Recycled Content</b>	25% Pre-Consumer Recycled Rice Hulls
<b>Brand</b>	PIG
<b>Drain Shape</b>	Round; Square; Rectangular
<b>Color</b>	Black
<b>Max Flow Rate</b>	4.2 gal./Minute
<b>Substance Filtered</b>	Heavy Metals; Oil; Sediment; Debris
<b>UV Resistant</b>	Yes

<b>Sold as</b>	1 each
<b>Weight</b>	17 lbs.
<b># per Pallet</b>	25
<b>Composition</b>	Skin: Polyester Filler: Parboiled, oven-dried rice hull Filler: Activated Carbon Filler: Zeolite
<b>UNSPSC</b>	47101514
<b>Pigalog® Page Number</b>	<u>Page 175</u>

## Metric Equivalent

<b>Weight</b>	7.7 kg
<b>Dimensions</b>	ext. dia. 13cm x 152cm L
