

# Oil Detection Test Paper

GEN180 0.75" x 2.75", 100 each

In liquids or soil, detecting strips quickly show the presence of hydrocarbons and the need for further cleanup.

- Paper quickly changes color when in contact with hydrocarbons, including gasoline, diesel, fuel oil, lubricating oils and mineral oils
- Immerse in water to test for oil contamination or press to soil to check need for remediation
- Strips are precut for fast access
- Compact, easily-stored, hard plastic case protects remaining strips

## Specifications

<b>Dimensions</b>	0.75" W x 2.75" L
<b>Brand</b>	CTL Scientific Supply
<b>Sensitivity Limit</b>	Largely Dependent on Solubility of Hydrocarbons
<b>Spill Kit Accessory Type</b>	Testing Supplies
<b>Temperature Limit</b>	Works in 59°F to 80°F (15°C to 27°C)
<b>Sold as</b>	100 per box
<b>Weight</b>	1 lb.
<b>Composition</b>	Paper
<b>Shelf Life</b>	730 days
<b>UNSPSC</b>	41116106
<b>Pigalog® Page Number</b>	<a href="#">Page 124</a>

## Metric Equivalent

<b>Weight</b>	.5 kg
<b>Dimensions</b>	1.9cm W x 7cm L
