

Wesco® Open-Head Drum Lifter

GEN252 For 30 to 55 gal. Poly or Steel Open- or Tight-Head Drums w/ 3/16" Chime, Load Capacity 1000 lbs.

Even if a drum lacks a lid, this lifter lets you move it without caving it in or deforming it.

- Arms adjust for use on nearly any drum with at least 3/16" chime: steel or poly, 30- or 55-gallon, open- or closed-head
- Three-point contact of the lifting arms helps prevent drum cave-ins or deformation
- Requires no hydraulic or electric connection; locks in place with drum's own weight
