

# Kolor Kut® Modified Water Indicating Paste

GEN834 1 each

Handy, non-hazardous paste detects water in tanks without altering the fuel being tested.

- Easily test for water in a fuel tank by spreading a thin film of Kolor Kut® onto a dipstick or other graduated rod
- Dark brown paste turns bright red after contacting water, clearly measuring the level of water in your tank
- Will not harm or alter the composition of gasoline, kerosene or any other fuel
- Paste is made entirely of non-hazardous materials and cleans off easily after use
