

Chapin® Salt and Ice Melt Spreader

GEN915 Holds 80 lb., For Most Pelletized Products, 1 each

Spread salt and ice-melt across large areas using this commercial-grade spreader with 80-lb poly hopper that resists rust and weather.

- 80-pound capacity poly-construction hopper supported on powder-coated steel frame
- Hopper is rust-resistant; enclosed gears are protected from weather
- T-shaped handle with rubber grips that are comfortable to grip with gloves; large handle helps with ease of pushing through snow and over ice; some assembly required
- Front and side baffles for targeting direction of where the ice-melt should go, wasting less product
- Toothed auger breaks up clumps so your preferred salt or ice-melt can easily flow through the gate opening
- Gate lever changes the gate opening based on the particulates; recommended for use with salt, halite, potassium chloride, magnesium chloride and calcium chloride (small and pelletized particulates)
- 12-inch pneumatic, wide-tread tires for moving over uneven ground
- Rain/snow cover included to protect particulates while spreading

Specifications

Use With	Most Pelletized Products
Dimensions	24" W x 38" L x 36" H
Assembly Required	Assembly Required
Brand	Chapin
Capacity	80 lb.
Caster/Wheel Included	Included
Color	Blue
Caster/Wheel Quantity	2
