

Polar Express Ice Melt

GEN932 Calcium Chloride Pellets, 50 lbs.

Polar Express activates quickly and contains components that melt at different speeds, allowing for extended melting.

- Employs a time release formula to melt over an extended period of time
- Contains heat-generating ice control crystals that ensure excellent performance
- Works effectively in temperatures down to -15°F
- Spread before snowfall to make shoveling easier

Specifications

Style	Calcium Chloride Pellets
Brand	Qik Joe
Sold as	1 bag
Weight	50 lbs.
# per Pallet	50
Composition	Calcium Chloride
Color	White
UNSPSC	46161506

Metric Equivalent

Weight	22.7 kg
--------	---------
