

Ergodyne® Ladder Lift & Carry Kit

GEN955 For Transporting Ladders, 1 each

Safely transport heavy ladders more easily using this shoulder lifting strap and carrying handle system.

- Durable, weather-resistant webbing and secure stitching resists tears, abrasions and punctures; holds up to 100 lbs
- Universal size/shape is compatible with A-frame and straight ladders, including fiberglass, wood and aluminum styles with various rungs, cross bars or gussets; will not work with extension or combination/multi-purpose ladders
- Shoulder strap allows user to put a majority of ladder's weight on shoulder, helping to relieve stress from arms and back, and keeping user's hands free for other tasks such as opening doors, carrying equipment and more
- Ladder lifting strap is intended to remain conveniently on back of ladder when in use, eliminating need to install and remove system upon every transport; when ladder is upright in use, padded shoulder strap can be placed into main pad pocket to prevent snags, trips and falls
- Ideal for workers needing a safe and easy solution for lifting and transporting heavy ladders, including construction, carpentry, automotive, electrical and more
