

# Microflex® A+ Aloe® Disposable Nitrile Gloves

GLV116 Powder-Free, 5.9 mil Tips/5.1 mil Palm, 100 per dispenser

From light-duty latex to heavy-weight nitrile, we have a glove for every wear-and-toss application.

- Non-allergenic nitrile is more chemical-resistant than latex to guard against intermittent contact and splashes
- Resists puncture and abrasion better than PVC/vinyl
- Entirely free of powder and its potentially undesirable effects
- Fully textured to provide more confident, whole-hand grip on wet or oily objects
- Thin enough to use as a liner under another glove
- Ambidextrous design simplifies inventory
- Beaded cuff helps prevent ripping and creates a better seal
- Non-sterile class I medical grade; strict standards ensure reliability
- Great for laboratories, hospitals, food industry, electronics, quality control, chemicals and more
- Aloe/Vitamin A inner coating soothes to help prevent chapped or cracked skin
- Additional millage in fingertips and palm minimizes tearouts
