

PIG® Temperature Screening Floor Sign & Marker- Box of 4

GMM23013 "Stand Here Temperature Screening" Marker for Indoor Temperature Stations, Events & Schools, Stays in Place; Won't Damage Floors, Peel or Curl Up; Anti-Slip, Includes (4) 35" x 24" Peel & Stick Markers

Notify employees and visitors that a temperature check is required to enter your facility. Adhesive-backed signs are easy to install, stay down and won't leave residue or damage floors upon removal.

- Temperature screening sign displays a bold "stand here" message on your floor with footprint graphic to help direct traffic flow and communicate social distancing guidelines
- Helps to promote your facility's plan of action that employees and visitors should be taking as part of health and safety procedures
- Nonpermanent adhesive sticks to clean, dry floors with a super-tight grip, but peels up easily without damaging floors or leaving a residue
- Unlike vinyl decals or tapes, our adhesive-backing has been proven in years of commercial and retail use to withstand full foot traffic, floor scrubbing and disinfectant use
- Anti-slip sign absorbs moisture and won't become slippery when wet like decals, tapes or paints can
- Traps any liquid to keep it contained and from creating a slip and fall hazard for employees or guests and visitors
- Leave in place and clean with mop or floor scrubber; can be scrubbed, vacuumed or swept off frequently without affecting performance
- Low profile does not create issues for heavy foot, cart, wheelchair or walker traffic; ADA compliant
- Withstands heavy foot and cart traffic and stays on the job for up to 3 months
- Durable, high-contrast message and images will not wear off
- Sticks to most commercial floor surfaces including smooth indoor concrete, VCT, linoleum, ceramic tile, quarry tile and laminate flooring
- Apply pressure to surface when installing sign to ensure strong grip to the floor
- Recommended for indoor and non-carpeted

surfaces only
