

PIG® Keep Aisles Clear Safety Message Mat

GRPWS3501 3' x 5', 2 pads

Combines a high-traction, non-slip, adhesive-backed mat with hi-viz Keep Aisles Clear message to help prevent slips, trips and falls.

- Adhesive-backed mat sticks to the floor without shifting, bunching or tripping up workers; hi-viz Keep Aisles Clear image identifies workplace caution
- Large 20" safety image alerts employees to safety requirements or cautions in their workplace
- Absorbent and high-traction top layer removes liquid and debris from shoes and prevents falls in wet, oily work environments
- 5 feet of walk-off coverage prevents dirt, grime and moisture from being tracked around, keeping surrounding floors clean and dry
- Message mat is durable enough to withstand heavy foot traffic, forklifts and pallet jacks
- Absorbs a wide variety of liquids including water, oil and grease; leakproof backing prevents liquid from soaking through to the floor
- Peels up easily without leaving a residue; simply replace when mat shows signs of wear
- Easy to clean; message mat won't shift or be damaged by mops, vacuums, shop/wet vacs or floor scrubbers
- Sticks to most floor surfaces including concrete, VCT, linoleum, ceramic tile, quarry tile and laminate flooring

Safety Instructions Regarding Flammable Liquids for Flame Resistant Mats

Pig Absorbent Mats are flame resistant in their unused state, but take on the properties of flammable liquids they absorb. Always take proper precautions against potential ignition in handling and disposal of these mats if they have absorbed flammable liquids. For further assistance, please call Technical Services.

Color Variation Statement

It is normal for top layer materials to show minor variations in color between production runs. This is particularly true for the grades of materials used in consumable or disposable products such as our adhesive-backed mats. New Pig makes every effort to achieve consistent color, but some variance is possible. Perceived differences in color may also result from mat layout orientation or uneven traffic wear patterns.
