

PIG® Surgical Absorbent Mat Pad with Adhesive Backing

HC102 Indoor Use on Concrete, Vinyl, Linoleum, Tile and Laminate Flooring, 31" x 40", 20 pads (4 bags of 5 each)

Absorbs saline and blood and stays put to keep O.R. floors dry and safe during high fluid surgeries.

- Mat pad sticks to the floor and won't slide, shift or bunch up during procedures; heavyweight pads are ideal for absorbing large amounts of fluids at scrub sinks or at the foot of O.R. tables
- Large, 31" x 40" mat pad absorbs O.R. fluids including blood, vomit, urine, saline and water
- More absorbent, more sanitary, faster and easier to use than towels, paper towels and other O.R. clean-up methods
- Disposable mats keep the surgical environment clean and hygienic; helps reduce cross-contamination
- Waterproof and leakproof
- Mat pads won't rip, tear or fray under light foot traffic or movement of mayo stands and carts
- Mat pads stick to the floor easily and peel up quickly; adhesive won't stick to surgical gloves
- Use anywhere fluids collect in healthcare facilities, surgical centers or veterinary clinics - operating rooms, scrub sinks, lab stations and more
- PIG Surgical Absorbent Mat with Adhesive Backing should be applied to your floor before each procedure and left in place for the duration of the surgery
- Mats take on the properties of absorbed liquids
 - always take proper precautions when handling saturated absorbents
