

PIG® NiCad Battery Neutralizing Spill Kit in Bucket

KIT610 Potassium Hydroxide, Neutralizing Capacity Up to 3.4 gal., UN1H2/Y30/S

Safely respond to NiCad battery electrolyte spills with this specially equipped kit containing neutralizing absorbents and PPE.

- All absorbents in this specially designed kit absorb and neutralize NiCad battery electrolyte spills
- PIG Base Neutralizing Socks stop spreading spills; PIG Base Neutralizing Mats and Loose Absorbent absorb, solidify and neutralize the remainder of the spill
- Color changes on contact with electrolyte, then remains in color-changed state when neutralization is complete; helps identify the best time to handle with the least amount of risk
- Gelling agents solidify electrolyte during neutralization, preventing them from leaching out of mat
- Polyethylene bucket with easy-open, screw-on lid can be used to ship or temporarily store used absorbents; UN Rating 1H2/Y30/S for Packing Groups II and III
- Contents are organized for quick, efficient response
- Includes PPE to guard against caustic materials
- Dust pan/broom combo allows for loose absorbent to be quickly cleaned up
- Bold "Spill Kit" lettering for quick identification
