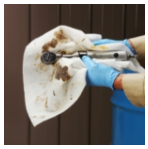
PIG® Oil Absorbent Cleanup Towels in Vac-Pack



MAT1208 15" x 20",100 towels

Wipe down oily equipment or surfaces outdoors where oil has collected in cracks and crevices. Towels absorb oil and filter water.

- Designed to work differently than conventional oil-only spill products; absorbent towels allow water to pass through while capturing hydraulic fluid, motor oil and other oil-based liquids
- Lightweight yet durable material conforms to irregular surfaces; tough enough to scrub concrete, rocks or asphalt
- Perfect for wiping down oily tools and cleanups in outdoor applications, especially in wet or rainy conditions; floats to remove oil on water, even the oily sheen
- Great for final cleanup when used in conjunction with PIG Oil Absorbent Filter Mat Pads
- White color shows absorbed oil to indicate saturation level
- Can be wrung out after use to reduce waste or for fuels blending or incineration
- Vac-pack bags save space and are easier to handle
