

PIG® Fat Mat® Absorbent Pad in Dispenser Box

MAT2101 Extremeweight, 16" W x 20" L, 50 pads per box

Need more cleanup power? There's a mat for that. Double the layers of our regular PIG Mat for your biggest messes.

- Twice as many layers of 100% polypropylene as our regular PIG Mats, thermally bonded to form one super-absorbent mat capable of drinking up huge volumes of liquid
- Tough, spunbond top layer stands up to heavy foot traffic; won't rip, tear, fray or create a trip hazard, even when saturated
- Fast-wicking "diaper action" transfers liquids into the absorbent inner layers to keep moisture away from surface
- Absorbs most common industrial liquids - oils, water, solvents, coolants and more
- Gray color means absorbed leaks and drips blend right in
- Can be wrung out and incinerated after use to reduce waste or for fuels blending
- Dispenser box makes it easy to take, carry and store your mat while protecting it from dirt and moisture
- Easy-tear perforations let you take only what you need, so you use less mat and save money
- Extreme heavyweight Fat Mat construction is ideal for applications that require long life and high capacity
- Mats take on the properties of absorbed liquids
 - always take proper precautions when handling saturated absorbents
