

## PIG® Rip-&-Fit® HazMat Chemical Absorbent Mat Roll in Dispenser Box

MAT342 Heavyweight, 15" W x 60' L, 1 roll per box

Absorb chemical drips and spills in small spaces like acid cabinets and create custom mat sizes with our extra-perforated mat roll in a dispenser box. Just "rip" it along the easy-tear perfs and "fit" it into place.

- Clean up drips and spills of acid and other hazardous chemicals in cabinets, shelves or benches and in tight spaces that require small or awkward size mats with our heavyweight mats; dispenser box is easy to store
- Absorbs the widest range of acids, bases, corrosives, chemicals and unknown liquids - even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide
- Extra perforations let you easily "rip" this PIG Mat and "fit" it to your spill without cutting; allows you to make your own mat size and reduces waste
- Absorbs a wide range of hazardous liquids found in chemical storage areas, labs and R&D departments
- Chemical-resistant mat won't degrade or cause a dangerous reaction upon contact with corrosive spills
- Pink color is easily distinguishable to assure workers use the correct mat during a chemical spill
- Perforated every 3.75" across width and every 10" across length
- PIG Mat lasts 2x longer than competitive mats and won't rip, tear or fray even when saturated; liquids absorb quickly for faster, easier cleanups and safer workplaces
- Mats take on the properties of absorbed liquids
  - always take proper precautions when handling saturated absorbents
