

PIG® Oil-Only UV-Resistant Absorbent Mat Pad

MAT4105 Heavyweight, 16" x 20", 100 pads

Outdoor mat pad absorbs oils NOT water, and withstands direct sun for up to a year without disintegrating.

- No job is too big for our heavyweight mat pads; our most popular mat weight is ideal for skimming oil off water, soaking up large-volume leaks and drips or lining areas around outdoor machinery or equipment and in areas where frequent changeouts aren't possible
- UV resistant up to 12 months; won't degrade during long term outdoor use
- Catch leaks and drips in hard-to-reach locations outside where frequent changeouts aren't possible
- Absorbs oil and NOT water; floats to clean up spills on water
- Bright-white color makes absorbed oil easier to see; draws attention to leaks and clearly shows saturation level
- Lasts 2x longer than competitive mats and won't rip, tear or fray even when saturated; liquids absorb quickly for faster, easier cleanups and safer workplaces
- Easy-tear perforations let you take only what you need, so you use less mat and save money
- Can be wrung out and incinerated after use to reduce waste or for fuels blending
- Mats take on the properties of absorbed liquids
 - always take proper precautions when handling saturated absorbents
