

PIG® Oil-Only Railroad Absorbent Mat with Poly Backing

MAT466 Heavyweight, 19" x 100', 2 rolls per bag

Specially made to absorb oils and fuels around railroad tracks during railcar maintenance.

- 19" width roll can be used on the outside of rails; 59" width roll (MAT465, sold separately) fits right between standard rails
- This heavy-duty three-ply mat is designed specifically to absorb oils and fuels, not water, from railcars during railyard maintenance
- Top layer is constructed with a tough geotextile fabric for added durability; UV resistant for outdoor use
- Highly absorbent polypropylene middle layer traps oils but allows rainwater to evaporate; bottom barrier film prevents liquids from leaching into the ground
- Border along outside edge provides for convenient tacking and prevents leakage
- Won't rip, tear or fray even when saturated; liquids absorb quickly for faster, easier cleanups and safer workplaces
- Mat rolls can be cut with a utility knife or scissors
- Mats take on the properties of absorbed liquids
 - always take proper precautions when handling saturated absorbents
