

PIG® Leak and Drip Pad System

PAD202 Heavyweight, 21" x 23", 1 each

Keep oily leaks and drips off the floor with this refillable holder and absorbent mat pad system.

- Non-absorbent vinyl pocket holds PIG Oil-Only Mat in place beneath leaking equipment; oil is absorbed and contained to protect floors
- Tough 18 oz. vinyl-coated reinforced fabric pad with bermed edge acts as a non-absorbent barrier and keeps fluids from penetrating surfaces below
- Low-profile pad can be used in many low-clearance applications (designed for indoor use)
- Built-in grommets let you secure pads in place if necessary
- Absorbs and retains oils and oil-based liquids - including lubricants and fuels - without absorbing a drop of water
- Holder accommodates 15" x 20" PIG Oil-Only Mat Pads (5 included; see MAT415 for refills); absorbs up to 32 oz. of oil-based liquids
- Pocket on the back of pad holder holds up to 5 spill pads
- Mats take on the properties of absorbed liquids - always take proper precautions when handling saturated absorbents
