

PIG® Outdoor Leak and Drip Pad System

PAK226 Heavyweight, 30" x 52", 1 each

Grommeted mat pad holder covers large areas and stakes down to stay in place – even in windy conditions.

- Weighted drip pad system stays right where you put it, even when the wind blows
- Pad holder accepts PIG UV-Resistant Mat Pads (included) to absorb oil and fuels, NOT water
- Mat pads resist UV light for up to 12 months; ideal for use in long-term, outdoor applications
- Heavy-weight construction delivers greater absorbency for demanding tasks and large-volume cleanups
- Non-absorbent PVC pad holder prevents oil from soaking through
- Extra-large surface area provides more coverage than standard mat pads
- Grommets and strap help you retrieve Drip Pad from underneath vehicles and machinery
- Mats take on the properties of absorbed liquids
 - always take proper precautions when handling saturated absorbents
