

## PIG® Pole-Mount Transformer Containment Bag

PAK236 For 37.5 kVA, 50 kVA & Small 75 kVA Pole-Mount Transformers, Max 1,900 lbs. (HazMat) or 2,280 lbs. (Non HazMat)

Lift, contain and transport leaking pole-mount transformers with this UN Rated containment bag.

- UN Rated for Packing Group II for the safe transport of PCBs
- High-capacity straps are rated at 10,000 lbs. for secure lifting using hoist or forklift with proper attachment
- Bag is made of watertight nylon/polyethylene sandwiched between durable woven polypropylene for ultimate weather, puncture and tear protection
- Six integrated Oil-Only Absorbent Mat Pads cushion bag to prevent damage on rough surfaces like diamond plate; also soak up leaks and splashes of mineral oils and PCBs
- Pull-up duffel sleeve covers entire transformer and cinches with attached drawstring to help keep liquid in and debris or rainwater out
- Bright-white color with reflective stripe is easy to see
- Self-supporting material holds bag open for easy, one-person loading; sewn-in Tyvek tag lets you record tracking information
- Also great for transporting engines, manufacturing equipment and other heavy, leaky objects
- Ideal for transporting and storing up to 37.5 kVA, 50 kVA and smaller 75 kVA transformers
- Packed for compact storage in vehicles
