

Battery Acid-Resistant Tray

PAK3001 Plastic, 20" x 28" x 1", 2.4 gal. Sump Capacity

Protect your equipment and flooring from corrosive leaks and drips with these acid-resistant trays.

- Low-profile tray is easy to use with cabinet and Valve Regulated Lead Acid (VRLA) battery applications
- Also great for containing leaks from motive power and back-up battery power systems
- Acid-resistant polypropylene is compatible with a wide range of chemicals
- Designed for use with battery acid-neutralizing pillows and socks (sold separately) based on your battery type and application
- Easily provides containment without the cost or hassle of fixed devices or permanent berms
- Helps your battery room comply with building codes, federal/local regulations and authorities having jurisdiction inspections
- Don't see the size you need? Call 1-800-HOT-HOGS and ask us about customizing a tray

Specifications
