

PIG® Heavy-Duty Poly Modular Spill Deck

PAK466 Holds (4) 55 gal. Poly or Steel Drums, 54.5" W x 54.5" L x 4.25" H, Sump Capacity 35 gal.

Create a custom storage area for extra-heavy loads with the sump capacity you need to comply with regs.

- Heavy-duty deck withstands extra-heavy loads; ideal for storing or servicing heavy equipment that is prone to leaks
- Patented "flow-through" sump design lets liquid pass freely from one sump to another to help you comply with containment regulations
- Modular design features exclusive bulkhead fittings and predrilled ports to connect to other decks; ready to use as soon as they arrive
- Mix and match the sections you need to fit your space and help meet sump capacity requirements
- Special tools and hardware to connect sections is included with each system
- Super-low 4.25" height is easy to load or unload; pumps and funnels are easy to access
- Catches leaks, drips and spills to help keep your storage areas clean and safe
- Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals
- Textured grating adds traction and lifts out for easy sump access
- We test all of our Containment Deck designs at max load for months to ensure they can handle full capacity at your facility
