- Patented "flow-through" sump design lets liquid pass freely from one sump to another to help you comply with containment regulations
- Modular design features exclusive bulkhead fittings and predrilled ports to connect to other decks; ready to use as soon as they arrive
- Mix and match the sections you need to fit your space and help meet sump capacity requirements
- Special tools and hardware to connect sections is included with each system
- Super-low 4.25" height is easy to load or unload; pumps and funnels are easy to access
- Catches leaks, drips and spills to help keep your storage areas clean and safe
- Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals
- Textured grating adds traction and lifts out for easy sump access
