

## PIG® Tank Spill Containment Sump with Grate

PAK5000 Holds (1) 25 gal. Tank, 31" W x 31" L x 14" H, Sump Capacity 33.5 gal.

Park your single-wall chemical storage tank in our sump (made from FDA-compliant resin) to help meet secondary containment regulations.

- Sump is designed to work with single-wall PIG Chemical Storage Tanks (sold separately) for affordable secondary containment
- Create a compliant sump/tank setup to keep leaks, spills and splashes off of floors
- Linear low-density polyethylene (LLDPE) construction with UV inhibitors resists corrosion and most chemicals for a long, trouble-free life, even in harsh environments
- Corrosion-resistant fiberglass grating elevates tanks above accumulated liquids and can be easily removed for maintenance
