

PIG® Double-Wall Chemical Storage Tank

PAK5113 Storage Capacity 65 gal., ext. dia. 23.5" x 39.5" H, 1 each

Dual containment tank helps you meet secondary containment regulations and is made from FDA Compliant resins for storing process chemicals, food products and wastewater treatment.

- Affordable, compact double-wall tank provides safe bulk storage and secondary containment for leaks and spills; no need for a separate sump or basin
- Linear low-density polyethylene (LLDPE) with UV inhibitors offers excellent resistance to corrosion and chemicals
- Ideal for chemicals with a specific gravity up to 1.5
- Includes 1" and 2" raised access ports for use with pickup tubes and other tank accessories
- Enclosed design keeps out dust, rainwater and other contaminants to maintain purity of stored liquids
- Molded-in pump mounting platform on top of tank provides a flat surface for safer use of tank accessories up to 240 lbs.
- 8" vented lid is threaded for easy access to contents
- Recessed "mouse door" molding at bottom of tank lets you install a bulkhead fitting (not included) for draining or bottom filling applications
- Tanks can stand alone without external supports when fully loaded
- Made from FDA Compliant resins for containment of food and cosmetic products
- NOTE: Not designed for fuel storage

| Item# | Description | Dimensions | Weight |
