

Steel Loading Ramp with Non-Slip Grate

PAK603 For 8.75" H Poly Spill Containment Pallet, 1000 lb. Load Capacity

Heavy-duty steel ramps are built strong for big loads. Skip the forklift and roll your drums up a ramp!

- Combination of steel frame with polyethylene grate surface is stronger than all-poly, yet lighter than all-steel construction
- Hinge assemblies let you store ramp upright inside a PIG Roll Top Hardcover
- Metal plate secures ramp to pallet or deck and provides a smooth transition for loading and unloading
- Nonslip poly grate surface provides traction for added safety
- Edge guards guide drum trucks and help prevent them from rolling off the sides
- Note: Ramp must be detached to close doors
