

PIG® Twin Poly IBC Tote Spill Containment Pallet

PAK749 Holds (2) IBCs, 61.625" x 124.6" x 22", Sump Capacity 535 gal.

You can't buy a stronger pallet to store your totes in compliance. PIG is the toughest on the market.

- Strong enough for long-term storage of IBCs, this innovative design transfers weight to load bearing channels to maximize capacity
- Molded-in sump catches leaks, drips and spills to help you comply with regulations and keep storage areas clean
- Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals
- Textured grating holds a variety of IBC sizes; lifts out for easy access to sump
- Low profile for easy access to and dispensing from IBC tanks
- Two-way forklift entry allows movement from either direction when not loaded
- Optional .75" drain plug lets you empty sump without removing drums or grating
- Side-by-side design lets you store two IBC tanks on one unit (8,000-lb. UDL per side); avoids the higher cost of buying two single units
