

## PIG® Heavy-Duty 1-Drum Poly Spill Containment Pallet

PAK987 Holds (1) 55 gal. Plastic or Steel Drum, 40" x 40" x 12.5", Sump Capacity 61 gal.

The strongest pallets you can buy won't buckle or bow, even under the heaviest loads! Guaranteed for life.

- The strongest, most durable containment pallets you can buy won't buckle or bow. We guarantee it.
- Strong enough for long-term storage of liquids with high specific gravities
- Innovative design transfers weight to load-bearing channels to maximize capacity
- Molded-in sump catches leaks, drips and spills to help you comply with regulations and keep your storage areas clean and safe
- Low height means loading and unloading require less effort and drum tops are within easier reach
- Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals
- Textured grating adds traction and lifts out for easy sump access
- Optional .75" drain plug lets you empty sump without removing drums or grating
- 2-way forklift entry allows easy movement from either direction loaded or unloaded (if loaded, drums MUST be properly secured before moving)
- We test all of our Containment Pallet designs at max load for months to ensure they can handle full capacity at your facility
