

## PIG® Acid Encapsulating & Neutralizing Sock

PIG309 Absorbs up to 48 oz. per sock, 4 socks

Absorb, encapsulate and neutralize acids in one easy step for safer spill cleanup. Color indication identifies the best time to handle.

- Encapsulate and neutralize the most common acid spills; great for battery charging, transport and storage areas
- Changes color on contact and during neutralization with liquid acids (pH below 7); color change continues until pH becomes neutral and is safe for handling
- Instantly absorbs up to 98% concentrations of sulfuric acid
- Gelling agents solidify acids during neutralization; prevents them from leaching out of sock

NOTE: Not for use with hydrofluoric acid
