

## PIG® Base Encapsulating & Neutralizing Sock

PIG353 Absorbs up to 48 oz. per sock, 4 socks

Absorb, encapsulate and neutralize bases in one easy step for safer spill cleanup. Color indication identifies the best time to handle.

- Encapsulate and neutralize common bases; great for cleaning up spills in areas where chemicals are stored, mixed or transported
- Changes color on contact and during neutralization with liquid bases (pH above 7); color change continues until pH becomes neutral and is safe for handling
- Instantly absorbs up to 50% concentrations of potassium hydroxide and other strong chemical bases
- Gelling agents solidify bases during neutralization; prevents them from leaching out of sock

### Specifications

Fluid Absorbed	Bases
Color	Mauve
Dimensions	ext. dia. 2" x 4' L
Absorbency	Up to 1.5 gal. per box
Absorbency per	Up to 48 oz. per sock
Brand	PIG
Filler	Polymer; Citric Acid; Thymol Blue
Skin/Outer Mesh	Skin - Polypropylene
Sold as	4 socks per box
Weight	6 lbs.
# per Pallet	360
UNSPSC	47131904
Pigalog® Page Number	<a href="#">Page 74</a>

### Metric Equivalent

Absorbency per	Up to 1.4 L per sock
Absorbency	Up to 5.7 L per box
Dimensions	ext. dia. 5.1cm x 121.9cm L
Weight	2.7 kg

## Disclaimers

### Base Absorbents Notice

Avoid contact with metallic nitrates, cyanides, sulfides and strong oxidizers. Contact with sodium or calcium hypochlorite creates chlorine gas.

### HAZ-MAT Notice

To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG® HAZ-MAT products prior to purchase. If you have any questions or need samples to test, please call Technical Services.
