

PIG® Base Neutralizing Absorbent Pillow

PIL353 Each absorbs up to 115.09 oz., 4 pillows per box

Absorb, encapsulate and neutralize bases in one easy step for safer spill cleanup. Color indication identifies the best time to handle.

- Encapsulate and neutralize common bases; great for cleaning up spills in areas where chemicals are stored, mixed or transported
- Changes color on contact and during neutralization with liquid bases (pH above 7); color change continues until pH becomes neutral and is safe for handling
- Instantly absorbs up to 50% concentrations of potassium hydroxide and other strong chemical bases
- Gelling agents solidify bases during neutralization; prevents them from leaching out of pillow
