

Protek Wrap® Paper Roll

PKG601 24" W x 600' L, General Protection of Ferrous Metals, Where Paper Needs to Mold Easily Around the Part

Protect ferrous metal parts from rust and corrosion during shipping or storage using this general-purpose VCI (Volatile Corrosion Inhibitor) paper.

- VCI paper provides a protective layer of safe, effective VCI formula as a barrier between ferrous metal surfaces and contaminants in the environment; prevents rust on steel, cast iron and ferrous alloys during shipping or storage
- General purpose
- Parts wrapped in this VCI paper remain clean, dry and ready to use immediately
- 35 lb natural kraft paper with safe, effective VCI formula saturating one side
- Printed on one side to identify it as valuable packaging material, as well as to differentiate the non-saturated side
- Convenient counter roll size fits on standard wall and tabletop dispensers for easy handling
- Prevents rust and corrosion on parts stored indoors up to 24 months
