

Protek Wrap® Wax Coated Roll

PKG603 24" W x 600' L, General Protection of Ferrous Metals, Where Paper Needs to Mold Easily Around the Part

Hand-wrap small and oddly shaped ferrous metal parts to protect from rust and corrosion using this VCI (Volatile Corrosion Inhibitor) paper with one side wax-coated to protect against moisture.

- VCI paper provides a protective layer of VCI formula as a barrier between ferrous metal surfaces and contaminants in the environment; prevents rust on steel, cast iron and ferrous alloys during shipping or storage
- 35 lb natural kraft paper with safe, effective VCI formula saturating one side
- One side wax-coated for extra barrier against moisture
- Ideal for hand-wrapping small and odd-shaped metals
- OEM-approved
- Non-toxic
- Waxed paper molds around the shape and stays in place
- Prevents rust and corrosion on parts stored indoors up to 24 months
