

PIG® Battery Acid Neutralizing Loose Absorbent

PLP2300 Neutralizing Capacity Up to 25.6 oz. per Container or 2 gal. Total, 10 containers per box

Clean large-area battery acid spills with confidence using this loose-absorbent neutralizer with color-change confirmation.

- Absorbs, holds, neutralizes and confirms safety of lead acid battery spills, all in one step
- Granular form is perfect for use on uneven or cracked surfaces over large areas
- Changes colors immediately on contact and continues changing during neutralization until spill is safe to handle and remove
- Special gelling agents traps battery acid once its absorbed, solidifying the liquid to prevent leaching
- Ideal for keeping near battery storage locations within your facility, such as at forklift charging stations
- Container is conveniently resealable

Specifications

Application	Absorbing & Neutralizing
Battery Type	Lead-Acid Battery
Brand	PIG
Fluid Absorbed	Neutralizes Acids
Neutralizing Capacity	Up to 25.6 oz. per Container or 2 gal. Total
Unit Weight	10 lb.
Sold as	10 containers per box
Weight	20 lbs.
# per Pallet	90
Composition	Sodium Carbonate, Alizarin, Polymer
UNSPSC	47131902

Metric Equivalent

Weight	9.1 kg
