

PIG® Bio-Fluids Solidifying Absorbent Powder

PLP503 Absorbs Bodily Fluids, Each absorbs up to 8 gal., 4 containers per box

Fast-acting absorbent captures biofluids like blood, urine and vomit and "locks" them inside for cleaner, safer disposal.

- Permanently solidifies to lock in absorbed liquids so they won't leak or liquefy when the absorbents are handled or placed under pressure
- Contains chlorine to kill pathogens, reduce odors and help you meet OSHA standards
- Clean scent helps reduce offensive odors during and after cleanup
- Environmentally-friendly product absorbs biological fluids including blood, urine and vomit
- Forms a solid, non-expanding mass for easier, less-expensive recovery and cleanup
- May help you meet EPA requirements when solidifying waste before shipment or landfilling
- Shaker bottle makes it easy to apply absorbent directly onto spill area
- High Btu value produces less than 0.1% ash content, ideal for fuels blending and incineration

Specifications

Absorbency Range	30 - 39.9 gal.
Absorbency	Up to 32 gal. per box
Absorbency per	Up to 8 gal. per container
Application	Solidifying
Brand	PIG
Fluid Absorbed	Bodily Fluids
Color	White
Unit Weight	4 lb.
Sold as	4 containers per box
Weight	18 lbs.
Composition	Co-Polymer Proprietary Blend
UNSPSC	47131902
Pigalog® Page Number	Page 118

Metric Equivalent

Absorbency per	Up to 30.3 L per container
-----------------------	----------------------------

Absorbency	Up to 121.1 L per box
-------------------	-----------------------

Weight	8.2 kg
---------------	--------
