

PIG® Drive-Over Build-A-Berm® Barrier 45° Vented Corner

PLR141 For 2" High Drive-Over Build-A-Berm Barrier, 2 per box

Customize a semi-permanent barrier layout, and then drive over it! Use these drive-over 45-degree corners as part of your design, along with our PIG Spill Berms, and contain spills around your unique machinery setup or storage area.

- The Drive-Over Barrier provides semi-permanent containment in high-traffic areas on concrete, asphalt or most sealed surfaces
- Create any configuration by combining with other Build-A-Berm components; ends overlap and can be sealed together for liquid-proof containment
- Durable enough to withstand indoor or outdoor traffic from trucks, loaded tow motors and other heavy vehicles
- Constructed of 40 oz, vinyl-coated fabric with an open-cell foam core; berm compresses to approximately 0.25" when driven over; springs back to shape when vehicles pass
- When used with standard high-visibility yellow Build-A-Berm Barriers, orange color indicates area where drivers can enter and exit
- Vent allows built-up air pressure caused by heavy vehicles driving over connected heavy-duty sections to escape without rupturing the seams of your barrier
- Secure to floor with sealant (sold separately) and reinforce with predrilled aluminum mounting strips (included) and steel anchors (included); seal seams with vinyl cement (sold separately)
- Join two 2"-high Drive-Over Build-A-Berm straight sections at a 45-degree angle (sold separately)

Specifications

Style	45° Corner
Use With	2" High Drive-Over Build-A-Berm Barrier
Dimensions	12" W x 19" L x 1.5" H
Barrier Height	2" H
Brand	PIG
Temperature Limit	Works from -22°F to 160°F

Color	Orange
Traffic	Vehicle Traffic
Sold as	2 per box
Weight	1.4 lbs.
New Pig Patent	5,820,297
Composition	Cover: 40 oz. PVC Core: Open-Cell Polyurethane Foam Strips: Aluminum Anchors: Galvanized Steel
UNSPSC	24101907

Metric Equivalent

Weight	.6 kg
Dimensions	30cm W x 48cm L x 3.8cm H
