

PIG® Build-A-Berm® Barrier Straight Section

PLR278 Ideal For Long-Term Custom Containment, 4.5" W x 15' L x 1.5" H, 1 each

Build a semi-permanent barrier around your machinery or storage areas with our crush-resistant spill berm.

- Barriers can be constructed into a semi-permanent, high-visibility barrier that's exactly the size and shape you need - indoors or out
- Pliable open-cell foam barrier springs back into shape after you walk or roll over it with light, wheeled equipment
- Durable, 18-oz. all-vinyl covering resists oils, coolants and most chemicals
- Cut to length with utility knife; for best installation results, secure to a smooth, sealed surface with sealant (sold separately) and join seams with vinyl cement (sold separately)
- Combine with Build-A-Berm Barrier Corners (sold separately) to create liquid-proof containment; ends overlap and seams can be sealed together with Industrial-Strength Vinyl Cement (sold separately)
- Contain leaks and spills around your machinery without building expensive concrete curbs or cutting and installing angle iron
- High-visibility yellow color draws attention to barrier for increased safety
- Easy removal requires only a flat-bladed shovel
- Great for use around battery charging stations, machinery or any other leak-prone areas
- Sealant, industrial-strength vinyl cement and barrier corner pieces sold separately
